

AMENDMENTS TO THE CLAIMS

The below listing of claims replaces all prior versions of claims in the application.

1. (Cancelled)
2. (Original) A differential planetary gear apparatus characterized in that:
a planetary gear is disposed in a region between a sun gear and a ring gear;
a drive source, a speed-change motive source, and a driven unit are disposed at any one of
an input side, an output side, and a speed-change side, respectively;
said speed-change motive source comprises an electric motor; and
supply of electric power to said speed-change motive source is stopped when said driven
unit is decelerated so that said speed-change motive source generates electric power.
3. (Original) A differential planetary gear apparatus according to claim 2, wherein the
electric power generated by said speed-change motive source is supplied to a resistance means.
4. (Original) A differential planetary gear apparatus according to claim 2, wherein the
electric power generated by said speed-change motive source is returned to a power source of
said speed-change motive source.
5. (Original) A differential planetary gear apparatus according to claim 2, wherein the
electric power generated by said speed-change motive source is supplied to a storage means.
6. – 11. (Cancelled)
